environmental law in greece pdf

environmental law in greece Acid rain in Greece, causes big damages in archeological monuments. Current policies. Greece is a signatory member of the Kyoto Protocol but there has been much sharp criticism from the failure to meet their intended targets for cutting carbon emissions. Many have claimed that policies have not been tough enough and the protocol has not been implemented in full owing to large business ...

Environmental issues in Greece - Wikipedia

environmental law in greece The Environmental Performance Index (EPI) is a method of quantifying and numerically marking the environmental performance of a state's policies. This index was developed from the Pilot Environmental Performance Index, first published in 2002, and designed to supplement the environmental targets set forth in the United Nations Millennium Development Goals.
