social responsibility unctad series on issues in international investment agreements One of the defining marks of the modern investment market is the divergence in the relationship between the firm and its equity investors. Institutional investors have become the key owners of stock - rising from 35% in 1981 to 58% in 2002 in the US and from 42% in 1963 to 84.7% in 2004 in the UK and institutions tend to work on a long term investment strategy.

social responsibility unctad series on issues in international investment agreements Introduction. The social determinants of health (SDH) are defined by the World Health Organization as "the conditions in which people are born, grow, work, live, and age, and the wider set of forces and systems shaping the conditions of daily life" (1). These forces and systems include economic policies and systems, development agendas, social norms and policies, and political systems.
